

Signing in Adobe Acrobat Sign

The following guide will provide you with information on how to sign a document in the Adobe Acrobat Sign platform using ZealiD's qualified electronic signature

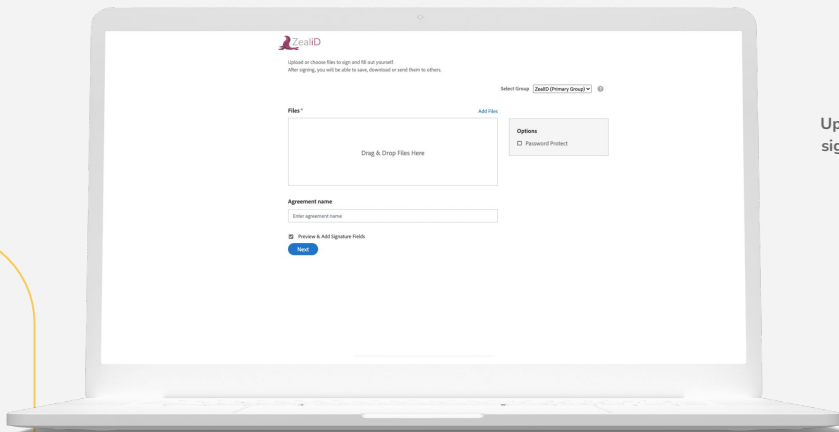

▶ 1. Home Screen

Press "Fill and sign a document"

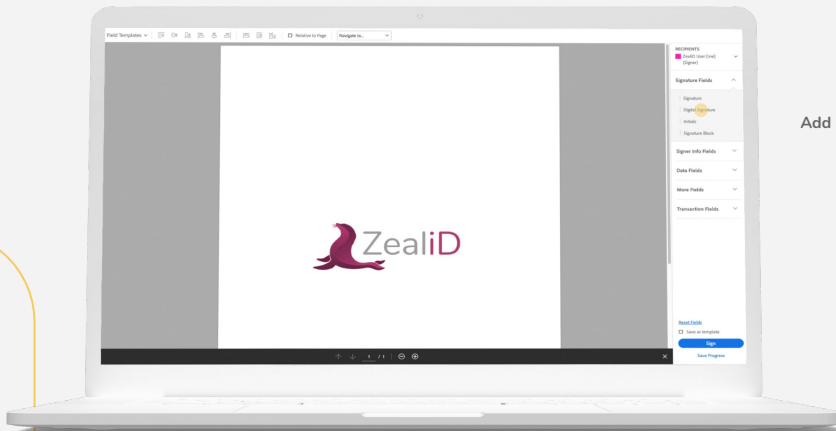

► 2. Upload a Document

Upload a document for signing and click “Next”

▶ 3. Add a Placeholder

Add a Digital Signature field
and click “Sign”

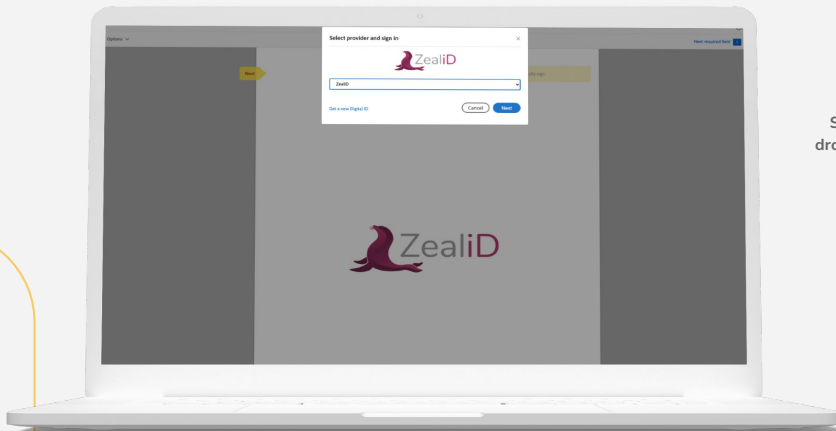

▶ 4. Signing Field

Click on a signing field that appeared on a document.

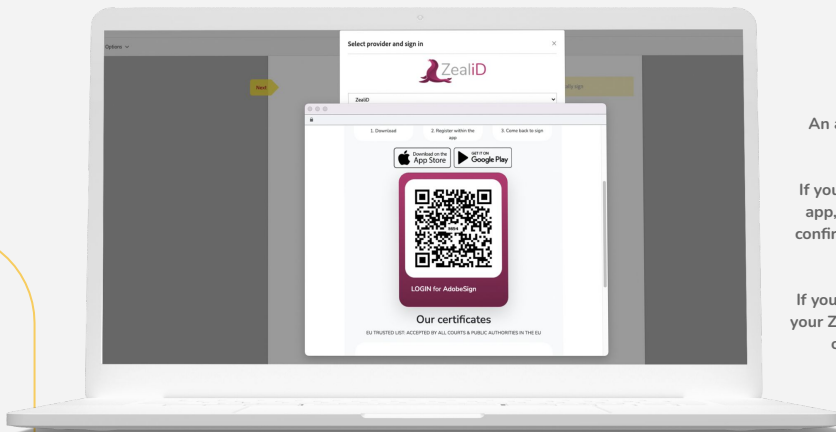

► 5. Select ZealiD

Select ZealiD from a drop-down list and click "Next".

▶ 6. Authorize

An authorization QR Code appears.

If you already use the ZealiD app, scan the QR Code and confirm with Touch ID or Face ID.

If you are new to the app, get your ZealiD app in Google Play or Apple App Store.

▶ 7. Review

Review a document and select
“Click to Sign”

▶ 8. Sign With QeS

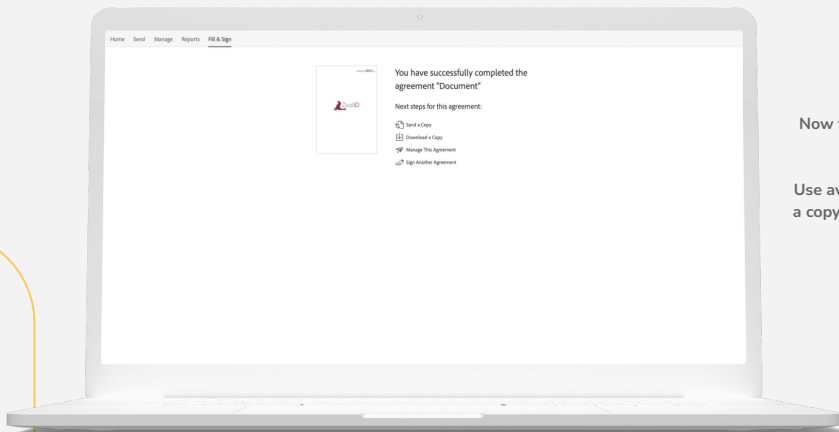

Open the ZealiD app and scan a QR Code presented on the screen.

Confirm with Touch ID or Face ID within the app.

▶ 2. Success

Now the document has been signed.

Use available options to make a copy, download a document, etc.
