

Granting border-free access via remote onboarding and QES

Binderr

Case study

Binderr is championing corporate transparency on a global scale by unifying business registries and streamlining corporate changes. With over 20 years of experience in the tech start-up space and the corporate world, they were on a mission to provide eIDAS compliant identity verification and an e-signature solution to their clients.

Benefits in Numbers

Remote contract signing process excellence:

8x

Reduced contract signing time

100%

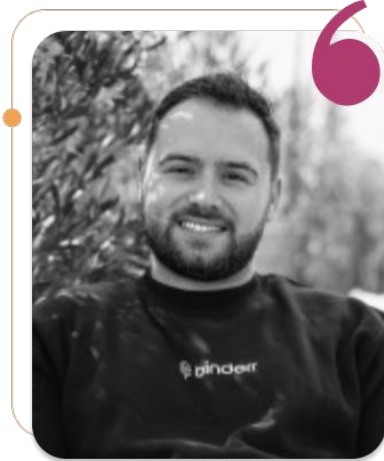

Less friction in signing process

60+

Nationalities covered

100%

eIDAS compliant

“After a challenging couple of weeks during which our previous TSP partner refused to accept the latest form of identity documents from Malta, it was crucial for us to locate a provider

whose services we could smoothly integrate it into our system. ZealiD offers a robust platform and a competitive pricing model which is among the finest in the industry.” - **Zak Cassar Rose, Director and COO at Binderr**

What were the challenges?

- Ensuring smooth self-service onboarding on an international scale
- Creating a seamless user experience without compromising on compliance
- Running secure and fully remote signing cycles that bring clarity and easy access to everyone involved

The solution & benefits

Company Benefits

Shorter signing cycles and reduced administrative costs.

User benefits

Smooth and easy in-app registration that welcomes all nationalities. Once registered, users only need the in-app Touch or Face ID feature to sign.

Legal benefits

KYC compliant identification leads to an EU Trusted list qualified signature - by EU regulation valid in all EU.
